EDUCATION

Florida Polytechnic University **Expected Graduation: May 2028**

Bachelor of Science (BS): ***Computer Science – Advanced Topics in Software Engineering and Game Design*** *Lakeland, FL*

Relevant Coursework: Data Structures, Algorithm Design & Analysis, Object-Oriented Programming, Database Systems, Computer Networks, System Analysis & Design

LEADERSHIP

Vice-Chair of Game Development *Lakeland, FL*

AI and Robotic Vision Research Club at Florida Polytechnic University **Sep 2026- Current**

- Lead game design workshops and collaborative projects, mentoring members in-game development, AI, and interactive technologies.

Vice President *Lakeland, FL*

Florida Polytechnic University Esports **Aug 2026 – Current**

- Lead team operations, event coordination, and player support while coordinating with captains, team managers, and other executive leadership to grow Florida Polytechnic University Esports program.

Overwatch Teams Manager & Varsity Captain *Lakeland, FL*

Florida Polytechnic University Esports **May 2026 - Current**

- Manage the Overwatch Program while serving as Varsity Captain and player, coordinating rosters, practices, team communication, and player development

Co-Organizer/Vice President *Lakeland, FL*

Google Developer Group @ Florida Polytechnic University **May 2026 – Sep 2026**

- Co-lead Florida-Polytechnic University's Google Developer Group on campus. Helped organize events, workshops, and other technical activities while supporting students in exploring software development and emerging technologies.

PROJECTS

World of Warcraft Launcher | *Python, JavaScript, Cloudflare Workers* **Sept 2026 - Current**

- Engineered a cross-platform launcher integrating automated game detection, add-on management, Armory data retrieval, news aggregation, playtime analytics, and multi-platform deployment.

Airport Network Graph Algorithm | *C++* **Jan 2025 – May 2025**

- Implemented a weighted directed graph system to model airport networks and evaluate optimal flight routes using distance and cost-based algorithmic analysis.

AxCelMark Job Application Website | *HTML, CSS, JavaScript* **Aug 2023 – Jul 2024**

- Designed and developed a responsive web platform for AxCelMark, emphasizing intuitive navigation, structured content delivery, and a cohesive user experience across multiple devices.

CERTIFICATIONS

Microsoft Technology Associate (MTA) – Introduction to Programming using JavaScript **Apr 2022**

- Demonstrated core JavaScript programming and application development fundamentals.

Microsoft Technology Associate (MTA) – Introduction to Programming using HTML & CSS **Dec 2021**

- Demonstrated core web development, page structure, and styling fundamentals.

Microsoft Technology Associate (MTA) – Introduction to Programming using Python **Apr 2021**

- Demonstrated core web development, page structure, and styling fundamentals.

Entrepreneurship and Small Business (ESB) Certification **Apr 2021**

- Demonstrated core entrepreneurship, business planning, and management fundamentals.

SKILLS

Programming Languages: **Python, C++, JavaScript, HTML, CSS**
Frameworks & Libraries: **Tkinter, Pillow, psutil**
APIs & Cloud: **REST APIs, Cloudflare Workers**
Developer Tools: **Git, GitHub, GitHub Actions, VS Code, PyInstaller, Inno Setup**
Technical Concepts: **Data Structures, Graph Algorithms, Object-Oriented Programming, Software Engineering, Cross-Platform Application Development**
